

DORS and the Maryland State Rehabilitation Council (MSRC) continually assess the rehabilitation and career needs of Maryland citizens with disabilities.

As part of this assessment, DORS and the MSRC hold annual public meetings and, every three years, conduct a Needs Assessment.

The purpose of the Public Meetings and Needs Assessment is to share DORS updates and to gather information that will help improve DORS services.

Questions and concerns about individual DORS cases will NOT be addressed.

If you have a concern about your DORS case, please contact your DORS office. Or, contact the Client Assistance Program 410-554-9361 cap.dors@maryland.gov
