

DORS Helps Marylanders With Disabilities Go To Work

Measurable Skills Gains Tool

Education and training can make a significant difference in achieving employment, independence and economic self-sufficiency.

Research confirms that individuals who have completed educational or vocational training programs and earn credentials have a better chance of long-term employment and establishing careers.

✓ **Please scan the code below with your smartphone, click on the link below, or enter the address in a web browser to tell your DORS counselor about your education and training accomplishments!**
