

'EMPLOYMENT WORKS!'

About Provet

At Provet, Inc., we believe that sustainable employment is the foundation of a thriving life. As an experienced employment services provider, we leverage over 20 years of collective workforce expertise to help individuals secure high-wage roles in competitive industries. Through strategic partnerships and a team of high-performing vocational specialists, Provet fills the vital niche of turning "jobs" into "careers."

We focus in securing sustainable, high-wage employment for individuals facing barriers to the workforce. We partner with organizations to provide a sophisticated range of employment services and job retention support.

Why Our Work Matters

Provet realizes the complex challenge of working with people with barriers to employment. Our mission is to improve lives through 'work' and intensive, supportive employment services. Since establishing Provet in 2016, we have had a special impact as a job placement provider linking job seekers with sustainable employment.

Our mission is to enable disadvantaged individuals to become gainfully employed and achieve independence. We have the capacity to work with individuals receiving government support/benefits, veterans, domestic violence victims, homeless persons, persons with substance abuse history, ex-offenders and persons with disabilities. We also connect graduates of training programs to jobs in demand.

A Reliable and Successful Partner

We have consistently exceeded our partner's expectations in contracted goals and have developed a reputation as an effective job placement entity. Our placement wages average 20% above the minimum wage, placing hard-to-serve participants in jobs with a career path. We are proud that our commitment to excellence translates to outcomes that consistently meet or exceed performance goals.

Expert Model with Proven Results

Provet's goal is to provide high quality assessment, vocational counseling and job placement services that lead to meaningful employment, job retention support and financial independence. We foster a positive environment that motivates participants to achieve their full potential. Our portfolio of services can be tailored to include:

- Participant Assessment
- Vocational Counseling
- Intake Services
- Job Readiness
- Case management
- Career Planning
- Job development
- Direct placement
- Support referrals
- Partnerships
