Applying for Unemployment Benefits

1. When should I first file? How do I file?

Eligibility for unemployment insurance benefits cannot be determined until you actually file an initial claim. If you are unemployed or working part-time, file your claim as soon as possible, as your eligibility begins the week in which you file your claim. Your claim becomes effective the Sunday of the week during which you apply for benefits.

You can file via the Internet at mdunemployment.com or by telephone using the Claim Center Telephone Number for your area.

The Division of Unemployment Insurance's website and call centers are currently experiencing an unprecedented volume of users due to COVID-19. This may result in long wait times.

1. If my employer temporarily ceases operations due to COVID-19, preventing me from coming to work, am I eligible for benefits?

If you are not exhibiting any symptoms of coronavirus, COVID-19, and you decide to leave your employment, the Division of Unemployment Insurance recommends that you file a claim for unemployment insurance. You may be determined to be eligible for benefits if the circumstances of your job separation are allowable under Maryland’s provisions for good cause and/or just circumstances for voluntarily leaving work, Section 8-1001 of Maryland Unemployment Insurance Law.

After you file a claim, the Division of Unemployment Insurance will determine whether you qualify to receive unemployment insurance benefits. 9. I get tips from customers on top of my regular wages. Will my tips be used to determine how much I will receive in benefits?

Employers regularly report (quarterly) the wages of their employees to the Division. These wages, including reported tips, are used as the basis for the calculation of the amount of benefits that a claimant is eligible for. If a tipped employee files a claim and receives a determination about their weekly benefit amount that they disagree with, they can request a review of the determination within 30 days. Along with the request for a review, the claimant can provide evidence of other wages that they have received, including unreported tips.

10. Am I required to search for work during this state of emergency?

The Division considers each claimant's efforts in relation to the labor market conditions to determine if the search for work criteria under Section 8-903 of Maryland Unemployment Insurance Law has been satisfied. During this period of dramatically changing labor market conditions, the Division might not require claimants to search for jobs, but may instead require claimants to perform other reemployment activities, such as creating a resume, completing online classes and training courses, or completing other approved online tasks that prepare the claimant to become reemployed in a future, stabilized labor market.

Claimants are not required to search for work if their employer has temporarily laid off the claimant and has provided a return to work date that is less than 10 weeks in the future.
