## **Maryland Bridges Technical Assistance Center for Blind/Low Vision Students, Their Families, Their Educators, and Their Community Allies**

Navigating the journey through high school to adulthood isn't easy, and blind/low vision students often encounter more obstacles on this journey. Lack of accessible tools and instruction and low expectations make the path more difficult and force you to spend time and energy on breaking down these unnecessary barriers.

The Bridges Technical Assistance Center serves stakeholders in multiple ways, from our foundational Bridges Helpdesk to our new online, accessible, and searchable Bridges Resource Library, we offer stakeholders well-researched, high-quality information and support to meet immediate, individualized needs and build long-lasting, intimate bonds with stakeholders. Our Helpdesk is here to help you overcome those obstacles and build your own bridges to success. We provide you ready access to accurate and up-to-date information tailored to your needs. We also provide individual support as well as relevant resources and guidance to help you decide which bridges you need and how you want to build them. Our services are confidential – we will not share your name or our discussions with anyone.

### **You may contact the Helpdesk in several ways:**

- Contact us via our [Accessible Web Form](#)
- Email: [Helpdesk@imagemd.org](mailto:Helpdesk@imagemd.org)
- Visit our [Bridges Technical Assistance website](#)
- Text or Leave a voice mail message: (410) 357-1546
- Send us a message through our [Facebook page](#)
